This covery program.

Although the official code was signed only a few days ago, it will be of interest to Chevrolet's many friends to learn that the Chevrolet Motor Company started to carry out the spirit of today's recovery program over three years ago! At that time, we put into operation a "share-the-work"

plan, whereby our workmen cooperated in spreading the work to give more men jobs. By means of this plan, as well as by regulating hours of work per week to meet retail demand, and by building up parts stocks in lean seasons, it was possible to carry 33,000 men on our payroll through the depression. For eleven months of each year since 1929, we have kept our employment within 10 per cent of this average. enabled us to anticipate the present recovery program and

in America. It is a bold, swift, courageous plan to start the ball rolling toward economic recovery. Its sincerity is unquestioned. Its objectives are admirable. And the direct, forceful steps the President and his associates are taking to make it a success, should stir the pride and admiration of every American.

We are proud and glad to do our part. And we are deeply grateful to the American people for the patronage that has We are justly proud of that record. We are also proud to say to play our part today.
